

Digital Advance Care Plans

A Touchstone Life Care Advance Care Plan offers you and your loved ones peace of mind that your end-of-life healthcare choices are clear to your family, doctors, and medical professionals. Simply fill out the easy to use step by step guided questions and instantly share your plan with your trusted decision makers.

- ✓ TLC advance care plans are legal, securely stored in the online cloud and instantly retrievable by QR code, giving any medical personnel certainty around your end-of life-wishes, in a heartbeat.
- ✓ What makes Touchstone Life Care advance care plans different from standard state-based paper forms, is that TLC takes you through a guided conversation format with easy-to-understand questions and simple language, that requires minimal reading and writing.
- ✓ It is intuitive to use, easy to update, and because it is digital, you can trust the most up-to-date version will be automatically shared with your trusted contacts, and instantly retrievable when it matters most – no searching through paper files, or expensive late-night calls with your GP or lawyer.
- ✓ Reduce any stress and conflict between your family and loved ones by having your end-of-life wishes digitally documented and shared and bring certainty about your wishes for care, even in an emergency, reduce unnecessary hospitalisation, and bring confidence to your loved ones knowing that they are honouring your wishes.
